

Hello World

data-to-paper

June 27, 2023

Table 1: Association between fruit and vegetable consumption and diabetes risk: Logistic regression results

Variable	Coefficient	Standard Error	p-value
Intercept	−4.861	±0.050	< 10^{-4}
Fruit and Vegetable Consumption	−0.181	±0.012	< 10^{-4}
Age (18~80+ years)	0.211	±0.002	< 10^{-4}
Sex (Male)	0.329	±0.013	< 10^{-4}
BMI	0.085	±0.001	< 10^{-4}
Education (1~6 scale)	−0.108	±0.007	< 10^{-4}
Income (1~8 scale)	−0.147	±0.003	< 10^{-4}
